

## Donkey Tag

### **Organization:**

The players are divided into two teams. One team is donkeys and is given a tail by placing the end of pinnie in the back waistband of their shorts. The other team is hunters who are looking for donkey tails.

The donkeys run around the grid trying to avoid having their tails being caught by the hunters. If they lose a tail they come and stand by the coach until all of the tails are caught. The teams then switch places.

### **Coach Notes:**

The players should be encouraged to spin, twist their hips and make quick turns to avoid having their tail caught. The hunters can cooperate and team up to corner one of the donkeys.
